In this video, William Reese (pictured below), a finance professor at Tulane University's A. B. Freeman School of Business, shares end-of-the-year financial tips. Included in his suggestions are: sell underperforming stocks, schedule doctor's appointments if deductibles have already been met, and maximize contributions to savings plans.

Reese has been a full-time finance professor at Tulane University's A.B. Freeman School of Business since August 1997. While at Tulane, he has taught in each of Tulane's programs: Undergraduate, Master of Finance, Full-time MBA, Global MBA, Professional MBA and Executive MBA. (Photo from the A.B. Freeman School of Business)
