Tulane’s 2022 Research, Scholarship and Artistic Achievement Awards were presented on Nov. 4 at the Higgins Hotel in New Orleans. The awards are given annually “to honor outstanding scholars and to recognize exceptional research achievement and impact on advancing knowledge in science, engineering, health, education, or creativity in the arts, the humanities and other academic fields of study.” This is the second year Tulane has honored the outstanding achievements of its researchers, with many deserving recipients across campuses. Hall of Fame Award recipients included Dr. James Robinson, Dr. Paul Whelton, and Dennis Kehoe, PhD.

The recipients are selected from a pool of nominees submitted by the schools, which are then reviewed by members of the Tulane Research Council and confirmed by the Tulane President and Provost. The awards are sponsored by the Office of Research. Read more about the awards at the Office of Research website.
