Crews dismantle a tower crane on the uptown campus the week of May 23. The crane was used on the construction site of The Village, a new residential complex that will increase on-campus residential capacity and help revolutionize how students experience Tulane by intertwining opportunities for living and learning. The crane garnered popularity with students and has a dedicated Instagram account (@tu.crane) and even crane-themed merchandise. (Photo by Rusty Costanza)

Once it was lowered to the ground, crews work to dismantle the crane in sections. (Photo by Rusty Costanza)
