

Fun facts about Yulman Stadium

September 04, 2014 2:30 AM Alicia Duplessis Jasmin
aduples@tulane.edu

Die-hard Green Wave fans will appreciate this information when it comes to proving just how much they know about Tulane University football. Player stats and coach Curtis Johnson's record are one part of proving your knowledge, but only the fans who bleed olive and blue can recite how much steel was used to build Yulman Stadium.

In That Number Yulman Stadium

620 TONS of steel make up the stadium's seating.

4FT

TALL are the words "Yulman Stadium" on the structure's side.

1,400

TONS of steel are in the home-side structure.

9.6.14
